DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

May 17, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding: Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by June 21, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Rural Housing Service

Title: 7 CFR 1901–E, Civil Rights Compliance Requirements.

OMB Control Number: 0575–0018.

Summary of Collection: Rural Development (RD) is required to provide Federal financial assistance through its farmer, housing, and community and business programs on an equal opportunity basis. The laws implemented in 7 CFR 1901–E, require the recipients of Rural Development's Federal financial assistance to collect various types of information by race, color, and national origin.

Need and Use of the Information: RD will use the information to monitor a recipient's compliance with the civil rights laws, and to determine whether or not service and benefits are being provided to beneficiaries on an equal opportunity basis. This information is made available to USDA officials, officials of other Federal agencies and to Congress for reporting purposes. Without the required information, RD and its recipient will lack the necessary documentation to demonstrate that their programs are being administered in a nondiscriminatory manner and in full compliance with the civil rights laws.

Description of Respondents: Individuals or households; Not-for-profit institutions; Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 27,000.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 436,779.

SUPPLEMENTARY INFORMATION:

Title: Endangered Species Regulations and Forfeiture Procedures.

OMB Control Number: 0579–0076.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), the U.S. Department of Agriculture (USDA) is responsible for enforcing provisions of the Act and the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) that pertain to the importation, exportation, or reexportation of plants.

As part of this mission, USDA's Animal and Plant Health Inspection Service (APHIS) administers the regulations in 7 CFR part 355, "Endangered Species Regulations Concerning Terrestrial Plants." In accordance with these regulations, any entity wishing to engage in the business of importing, exporting, or reexporting terrestrial plants listed in the CITES regulations at 50 CFR 17.12 or 23.23 must obtain a protected plant permit from APHIS. Such entities include importers, exporters, or reexporters who sell, barter, collect, or otherwise exchange or acquire terrestrial plants as a livelihood or enterprise engaged in for gain or profit. The requirement does not apply to persons engaged in business merely as carriers or customhouse brokers.

To obtain a protected plant permit, entities must complete an application and submit it to APHIS for approval. When a permit has been issued, the plants covered by the permit may be imported into the United States, exported, or reexported, provided they are accompanied by documentation required by the regulations and all other conditions of the regulations are met.

Effectively regulating entities who are engaged in the business of importing, exporting, or reexporting endangered species of terrestrial plants requires the use of this application process, as well as the use of other information collection activities including, but not limited to, appealing the denial of a permit; marking containers used for the importation, exportation, or reexportation of the plants; notifying

APHIS of the impending importation, exportation, or reexportation of the plants; validating documents; creating and maintaining records of importation, exportation, and reexportation; and submitting related reports from records required to be maintained.

APHIS also administers regulations at 7 CFR part 356, "Forfeiture Procedures," which sets out procedures for the forfeiture of plants or other property by entities found to be in violation of the Endangered Species Act or the Lacey Act (16 U.S.C. 3371 *et seq.*). Entities whose property is subject to forfeiture may file with APHIS a waiver of forfeiture procedures, a claim, a request for return of property, or petition for remission or mitigation of forfeiture.

The information provided by these information collection activities is critical to APHIS' ability to carry out its responsibilities under the Endangered Species Act and the Lacey Act. These responsibilities include monitoring importation, exportation, and reexportation activities involving endangered species of plants, as well as the investigation of possible violations and the forfeiture of plants or other property.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.084 hours per response.

Respondents: U.S. importers and exporters of endangered species of terrestrial plants.

Estimated annual number of respondents: 1,097.

Estimated annual number of responses per respondent: 147.

Estimated annual number of responses: 161,434.

Estimated total annual burden on respondents: 13,499 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of May 2021.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.
